BIBLIOGRAPHY

BIBLIOGRAPHY OF INTERNATIONAL LAW CONCERNING ASIAN AFFAIRS*

J.J.G. SYATAUW**

Editorial introduction

This bibliography has been prepared primarily as a service to Asian readers of this Yearbook so as to inform them about current international law writings on Asian affairs. For the same reason, the selection of materials has been limited by the following criteria: (a) included here are only (1) books, articles and other materials dealing with Asian topics and topics directly related to Asia, published both in and outside the Asian continent; (2) in exceptional cases, other publications considered of great interest; (b) this being the first volume of the *Yearbook*, the listing goes back three years (until 1988); (c) only publications in the English language have been included.

For the sake of convenience, the materials have been arranged under the following headings:

1. General
2. States and groups of states
3. Territory and jurisdiction
4. Sea
5. Air and space
6. Environment
7. International conflicts and disputes
8. War, armed conflict, neutrality
9. International criminal law
10. Peaceful settlement of international disputes

---

* In the preparation of this bibliography good use has been made of book review sections in established professional journals of international law, of Asian studies and of international affairs, while special mention should also be made of the bibliography on Public International Law published by the Max Planck Institute of Foreign Public Law and International in Heidelberg, Federal Republic of Germany, and of the regular lists of acquisitions of the Peace Palace Library in The Hague, The Netherlands. In future it is hoped to establish regular contacts for this bibliography section with law libraries and legal publishers in Asian countries.
