BIBLIOGRAPHY

BIBLIOGRAPHY OF INTERNATIONAL LAW CONCERNING ASIAN AFFAIRS*

EDITORIAL INTRODUCTION

This bibliography follows last year's format. It therefore provides information on (1) books, articles and other materials dealing with Asian topics and topics directly related to Asia, published both within and outside the Asian continent; (2) in exceptional cases, other publications considered of interest; (3) publications in the English language only. With a few exceptions the materials included are published after 1988, the cut-off date of the previous bibliography.

The headings of last year's bibliography have been maintained, but the currently important topic of 'peace-keeping' has been added to heading no. 8.

In the preparation of this bibliography good use has been made of book review sections in established professional journals of international law, of Asian studies and of international affairs, while special mention should also be made of the bibliography on Public International Law published by the Max Planck Institute of Foreign Public Law and International in Heidelberg, Federal Republic of Germany, and of the regular lists of acquisitions of the Peace Palace Library in The Hague, The Netherlands. In future it is hoped to establish regular contacts for this bibliography section with law libraries and legal publishers in Asian countries.
