BIBLIOGRAPHY OF INTERNATIONAL LAW CONCERNING ASIAN AFFAIRS*

J.J.G. Syatauw**

EDITORIAL INTRODUCTION

This year's bibliography follows the same format as that of previous years. Information is provided here on: (1) books, articles and other materials dealing with Asian topics; (2) in exceptional cases, other publications considered of interest; (3) English language publications only.

Although the diversity of topics in the literature is increasing all the time, for the sake of simplicity, consistency and a clear overview, the same headings as in previous years have been maintained.

We would like to appeal to our readers to send us, where possible, information on recent international law books and articles on Asian topics published in Asia in the English language. We need only to know, the author (s) name, title of the book or article, name of publisher or periodical, year of publication and page reference. In this way we will be able to keep this section of the *Yearbook* up to date.

The headings used in this year's bibliography are:

1. General
2. States and groups of states
3. Territory and jurisdiction
4. Sea
5. Air and space

* In the preparation of this bibliography good use has been made of book review sections in established professional journals of international law, of Asian studies and of international affairs. Special mention should be made of the bibliography on *Public International Law* published by the Max Planck Institute for Comparative Public Law and International Law at Heidelberg, Germany, and of the regular lists of acquisitions of the Peace Palace Library at The Hague, The Netherlands.
