THE SCOPE OF EASTM

Copyright © 2020. *East Asian Science, Technology, and Medicine* (formerly *Chinese Science*) is published by the International Society for the History of East Asian Science, Technology, and Medicine (ISHEASTM). Numbers 1-10 (1975-1992) were published irregularly under the editorship of Nathan Sivin (University of Pennsylvania). Numbers 11-15 (1993-1998) were issued annually at the University of California, Los Angeles, by Benjamin A. Elman. Beginning with Number 16 (1999), the name of the journal changed to *East Asian Science, Technology, and Medicine*. Numbers 16-44 were published by Hans Ulrich Vogel at the University of Tübingen (1999-2016). Since Number 45 (2017), the journal is edited by Catherine Jami at CNRS, Paris.

This journal includes studies on the science, technology, and medicine of traditional and contemporary East Asia. Any study based on original research using Chinese, Japanese, Korean or Vietnamese primary sources or artifacts, that elucidates the relationships and interactions of science, technology, and medicine with politics, society, economics, philosophy, culture, religion, historiography, as well as their disciplinary traditions, or throws light on the work of scientists, technologists, and physicians in East Asia will gladly be considered. In contrast to other journals in the field, EASTM has no page limitations and thus also publishes lengthy articles rich in empirical documentation.

SUBMISSIONS

Potential contributors are encouraged to correspond with the editor before submitting manuscripts in order to ensure that their work falls within the purview of *EASTM*, and to simplify the preparation of the final copy. All contributions except invited reviews are refereed. The editor does not referee.

For Chinese romanization, Pinyin transcriptions is to be used, while for Japanese and Korean, the Hepburn and McCune/Reischauer systems are to be used. With regard to style and format, contributors should refer to the new website of the journal: <https://brill.com/view/journals/east/east-overview.xml> and to our new instructions for authors (https://brill.com/fileasset/downloads_products/Author_Instructions/EAST.pdf). Information on the preparation of manuscripts and their submission in electronic form will also be provided on request.

SUBSCRIPTIONS AND PAYMENTS

ISHEASTM MEMBER RATE: membership of the International Society of History of East Asian Science, Technology and Medicine gives right to access to the journal online throughout the membership period (currently four years): normal rate € 90.00 or US\$ 120.00; concessional rate for Ph.D. students, postdocs within first five years of their Ph.D., or retired persons: € 16.00 or US\$ 22.00.

ISHEASTM

The publication, since the fifties, of Joseph Needham's (1900-1995) monumental work, *Science and Civilisation in China*, has been followed by a rapid development of research on the history of science, technology, and medicine in China, as well as in civilisations upon which Chinese culture exerted an important influence, such as Japan, Korea, and Vietnam. Beginning in 1982, International Conferences on the History of Science in China were held at irregular intervals. At the sixth of these conferences, held in Cambridge in 1990 in honour of Joseph Needham's ninetieth birthday, participants agreed to found the International Society for the History of East Asian Science, Technology, and Medicine (ISHEASTM).

The Society's purpose is to serve, represent and speak for scholars of the field defined by its name. It aims, primarily, to promote contacts and exchanges between these scholars, and also to establish and reinforce links with other scholarly communities at an international level. The Society's activities include:

- The organisation of a plenary meeting every three years (Kyoto 1993, Seoul 1996, Singapore 1999, Shanghai 2002, Munich 2005, Baltimore 2008; Hefei 2011), and thereafter at four-yearly intervals (Paris 2015; Jeonju 2019);
- The publication of a journal, *East Asian Science, Technology, and Medicine*;
- The provision of an email discussion group for members.

For more information on the Society, see the website at <https://isheastm.org>.
