ASSOCIATION AFFAIRS

Death of Honorary Member Margaret Chattaway

Dr. W.E. Hillis informed us of the death of our Honorary Member Dr. Margaret M. Chattaway at the age of 98 in December 1997. In her early career she worked together with Dr. L. Chalk at Oxford and contributed significantly to Metcalfe & Chalk's *Anatomy of the Dicotyledons*. In 1947 she went to Australia where she continued to enrich plant anatomy with a number of important studies on heartwood, bark and spiral grain. A full obituary will be published in a future issue of the IAWA Journal.
