

Research in Integrated STEM Education

RISTEME is an independent journal managed by a team of international academics in STEM education research that aims to:

Concretise ideas about STEM integration

**Catalyse new ways of conceptualising and enacting
STEM integration**

We invite you to submit your manuscript for topics related to STEM:

Education Policies
Teaching
Learning
Curriculum
Assessment
Teacher Education

Scholarly and practitioner-based manuscripts include, but are not limited to, qualitative, quantitative, evaluative, reviews, position papers, policy perspectives, comments, and criticisms.
(6,000-8,000 words)
