

Special Issue Proposals

Behaviour

Editors-in-Chief: Mariska Kret and Brian Wisenden

brill.com/beh

Behaviour is dedicated to advancing the understanding of animal and human behavior through high-quality, peer-reviewed research. To maintain this tradition of excellence, we believe in fostering conversations on emerging and impactful topics that may not yet have been fully explored in traditional article submissions. Special issues allow us to delve into such timely and significant themes, offering our readership a comprehensive and cohesive collection of studies focused on a particular subject.

By organizing these focused collections, we hope to shape the conversation in this evolving field and continue serving as a leading resource for behavior researchers worldwide

If you are interested in setting up such a special issue, please contact Prof. Brian Wisenden at wisenden@mnstate.edu or wisenden@gmail.com.

We would like to receive from you:

- **Title of the Special Issue.**
- **Guest editor(s) names.**
- **Abstract** (no more than 20 lines).
- **Aimed number of articles** (minimum of 6).

Further information for planning:

Action	Who	Timeline
Contact potential authors	Guest editors	
Writing period for authors	Authors	

Review process	Reviewers	
Time to revise/amend based on reviewer comments	Authors	
Publication procedures	(guest) Editors + Publisher	

Article size: 5 000 to 10 000 words, not including references.
