Scope

This international journal is a subscription-based, peer reviewed, general review of educational theory, history, philosophy and related empirical sciences that aims to publish a wide range of articles in English. It has a particular focus on the contribution of education -- socially, morally and economically -- to society, culture and economy. The journal welcomes articles on significant new research as well as material of a more reflective nature. The Beijing International Review of Education (BIRE) aims to publish articles that are of interest not only to academics and policy makers but also teachers and members of the public. All articles in this journal undergo rigorous peer review.

Ethical and Legal Conditions

The publication of a manuscript in a peer-reviewed work is expected to follow standards of ethical behavior for all parties involved in the act of publishing: authors, editors, and reviewers. Authors, editors, and reviewers should thoroughly acquaint themselves with Brill's publication ethics, which may be downloaded here: brill.com/page/ethics/publication-ethics-cope-compliance.

Online Submission

BIRE uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: editorialmanager.com/bire. First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested. During registration, you can fill in your username and password. If you should forget this username and password, click on the "send login details" link in the login section, and enter your e-mail address exactly as you entered it when you registered. Your access codes will then be e-mailed to you.

Please upload source files and not pdf files. Any figure files should be uploaded separately, and should have high density of at least 300-600 dpi at a size suitable for printing.

The revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Double-blinded Peer Review

BIRE uses a double-blind peer review system, which means that manuscript author(s) do not know who the reviewers are, and that reviewers do not know the names of the author(s).
Instructions for Authors

When you submit your article via Editorial Manager, you will be asked to submit a separate title page that includes the full title of the manuscript, the names and complete contact details of all authors, the abstract, keywords, and any acknowledgement texts. This page will not be accessible to the referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc. The names of these files and the document properties should also be anonymised.

File Format
Authors should make use of Apple Macintosh or PC format to submit files in MS Word, using the Brill font (brill.com/about/brill-fonts) or a generic fonts such as Arial, Calibri or Times in 12 point font size, double spaced, justified text, with pages numbered bottom right. If you need to use other fonts, always send them along with the text file.

Contact Address
For any questions or problems relating to your manuscript please contact the BIRE Editorial Manager, Dr Hong Wan at: BIRE@bnu.edu.cn. For eventual questions about Editorial Manager, authors can also contact the Brill EM Support Department at: em@brill.com.

Submission Requirements

Language
Manuscripts should be written in English. American and British spelling should not be mixed: spelling should be consistent throughout. The preferred form in English is American English, unless the author is a native speaker of British English.
The text must be grammatically correct and in good literary style. The manuscript should have been checked before submission by a qualified native speaker.
Where both -ise and -ize spellings are possible, the latter should be used, e.g. in "standardize", "italicize", "realize"; but note that exercise, circumcise, compromise and many other words must be spelled with -ise. For questions concerning spelling, hyphenation, and punctuation, consult Webster's Third New International Dictionary and Merriam-Webster's Collegiate Dictionary, 10th ed.

Length
Articles should normally be around 6,000 words.
Reviews of relevant books are also welcome and should be 500–1,000 words, although longer reviews may be accepted by agreement. Reviews should be critical and not just summarize the content of the material reviewed.

The Author retains the right to self-archive the accepted (peer-reviewed) version after an embargo period of 12 months. The accepted version means the version which has been accepted for publication and contains all revisions made after peer reviewing and copy editing, but has not yet been typeset in the publisher's lay-out.
