

Scope

International Review of Pragmatics (IRP) is a peer-reviewed international journal committed to publishing excellent research in the area of pragmatics and related disciplines pertaining to all aspects of human communication, verbal and non-verbal. It aims to provide a comprehensive and authoritative picture of the field, encouraging submissions rooted in different conceptions and perspectives originating in geographically diverse areas. *IRP* publishes full-length original articles, review articles and discussion notes. While subscribing to the general view that all meaning is necessarily contextual, *IRP* welcomes research reflecting different, often conflicting, views of pragmatics. It is a forum for papers that analyse discourse in its many instantiations (spoken, written; institutional, business, media etc.) through a pragmatic lens, but also for those which consider pragmatics itself a separate discipline defined by specific objects of investigation (deixis, implicature, etc.). The confrontation is supposed to establish how much explanatory power in pragmatics rests in its interdisciplinary and semiotics-based variations, as opposed to self-contained methodologies with precisely delineated scope of application. Thus, in the long run, the aim of *IRP* will be to maintain a vigorous debate leading to crystallization of the core concept of pragmatics, and to evaluation of its descriptive and interpretive capacity.

Ethical and Legal Conditions

The publication of a manuscript in a peer-reviewed work is expected to follow standards of ethical behaviour for all parties involved in the act of publishing: authors, editors, and reviewers. Authors, editors, and reviewers should thoroughly acquaint themselves with Brill's publication ethics, which may be downloaded here: brill.com/page/ethics/publication-ethics-cope-compliance.

Online Submission

IRP uses Editorial Manager, a web-based submission and peer review tracking system. All manuscripts should therefore be submitted online at editorialmanager.com/irp. Please make sure to consult the Instructions to Authors prior to submission to ensure your submission is formatted correctly. The final draft of a manuscript accepted for publication must be submitted electronically in both Word and PDF. Final versions must be proofread carefully before submission; please use your spelling and grammar check.

Double-blind Peer Review

IRP uses a double-blind peer review system, which means that manuscript author(s) do not know who the reviewers are, and that reviewers do not know the names of the author(s). When you submit your article via Editorial Manager, you will be asked to submit a separate title page that includes the full title of the manuscript, the names and complete contact details of all authors, the abstract, keywords, and

Instructions for Authors

any acknowledgement texts. The short biographical note should also be given here. This page will not be accessible to the referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc.

The names of these files and the document properties should also be anonymised.

Contact Address

For any questions or problems relating to your manuscript please contact: piotr.cap@gmail.com. For eventual questions about Editorial Manager, authors can also contact the Brill EM Support Department at: em@brill.com.
