

Instructions for Authors

Scope

Innovation in the Social Sciences (ISS) is a **fully Open Access** (see below), **online-only**, international, peer-reviewed journal that aims to publish research articles, perspectives, and concise reports of empirical studies that address real-world social problems (e.g., climate change, the pandemic and its impact, right-wing populism, political polarization, global inequality, population aging, democratic governance) with innovative perspectives grounded in solid social, cultural, political, and economic theories and practices. By aligning with growing trends of interdisciplinary research in the social sciences, the journal aims to integrate cross-field research results and various practical experiences to provide innovative solutions to social problems. Please visit the [journal web page](#) for the full statement of aims and scope.

Open Access

Innovation in the Social Sciences is a **fully Open Access journal**, which means that all articles are freely available online, ensuring maximum, worldwide dissemination of content. Open Access publication of the journal is supported by a subvention from [National Sun Yat-sen University](#) (Taiwan), and the Article Publication Charge for authors is therefore waived. For more information, see the [BrillOpen](#) dedicated webpage.

Ethical and Legal Conditions

Please note that submission of an article for publication in any of Brill's journals implies that you have read and agreed to Brill's Ethical and Legal Conditions. The Ethical and Legal Conditions can be found here: brill.com/downloads/conditions.pdf.

Online Submission

ISS uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: editorialmanager.com/ISSBRILL.

First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested. During registration, you can fill in your username and password. If you should forget your Username and Password, click on the "send login details" link in the login section, and enter your e-mail address exactly as you entered it when you registered. Your access codes will then be e-mailed to you.

Prior to submission, authors are encouraged to read the "Instructions for Authors." When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.

Instructions for Authors

A revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Double-blind Peer Review

ISS uses a double-blind peer review system, which means that manuscript author(s) do not know who the reviewers are and that reviewers do not know the names of the author(s).

When you submit your article, you will be asked to submit a separate title page that includes the full title of the manuscript plus the names and complete contact details of all authors. This page will not be accessible to the referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc. The names of these files and the document properties should also be anonymized.

Contact Address

For any questions or problems relating to your manuscript, please contact the ISS Editorial Office at: iss@mail.nsysu.edu.tw. For general questions about Editorial Manager, authors can also contact the Brill EM Support Department at: support-em@brill.com.

Submission Requirements

Language

ISS publishes articles in English. Contributions should be grammatically correct and in good literary style. All spelling should be consistent. Authors are free to use either American English or British English, but usage must be consistent throughout a submission.

Font

Ordinary Roman style text Arial and Times New Roman that come with Microsoft Windows are fine. For extended characters, authors should ensure that they use a Unicode-friendly font such as the Brill (brill.com/about/brill-fonts).

Unicode and Non-Roman Fonts

The Editors request the use of Unicode fonts only.

Updated versions of Times New Roman in Microsoft Windows contain Greek and Hebrew Unicode fonts. The Society of Biblical Literature has produced Hebrew and Greek Unicode fonts. The Hebrew comes with keyboard driver. They are available at sbl-site.org/Resources/Resources_BiblicalFonts.aspx.

If you have any questions about fonts or any other issue, please contact the editor.

Authors are responsible for checking these proofs and are strongly urged to make use of the Comment & Markup toolbar to note their corrections directly on the proofs. At this stage in the production process only minor corrections are allowed. Alterations to the original manuscript at this stage will result in considerable delay in publication and, therefore, are not accepted unless charged to the author. Proofs should be returned within promptly.
