

Instructions for Authors

Scope

Since 1966, the International Society for the Study of Time (ISST) has been providing a framework for an interdisciplinary dialogue about the nature of time. *KronoScope* (*KRON*), edited by an international board of scholars, carries forward the work of ISST. It offers a forum for the cross-fertilization of scholarly and scientific study about the nature of time as seen from a range of perspectives and disciplines. As a journal, it can accommodate the expanding concerns of the global community in search of understanding and meaning. *KronoScope* invites critical contributions from all disciplines.

Ethical and Legal Conditions

Please note that submission of an article for publication in any of Brill's journals implies that you have read and agreed to Brill's Ethical and Legal Conditions. The Ethical and Legal Conditions can be found here: brill.com/downloads/conditions.pdf.

Online Submission

The Journal now uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: editorialmanager.com/kron.

First-time users of EM need to register first. Prior to submission, authors are encouraged to read the 'Instructions for Authors' and the EM instructions available by following the above link and clicking on the 'help' icon in the top left hand menu on the page. Online submission considerably shortens overall publication time. When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.

Please upload source files (.doc, etc.) and *not* .pdf files. For figures, please see below. Any figure files should be uploaded separately, and should have a high density of at least 300 dpi at a size suitable for printing. The revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Double-blinded Peer Review

KRON uses a double-blind peer review system, which means that manuscript author(s) do not know who the reviewers are, and that reviewers do not know the names of the author(s). When you submit your article via Editorial Manager, you will be asked to submit a separate title page which includes the full title of the manuscript plus the names and complete contact details of all authors. This page will not be accessible to the referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc. The names of these files and the document properties should also be anonymized.

Instructions for Authors

Contact Address

For any questions or problems relating to your manuscript please contact the Managing Editor, Dr. Jo Alyson Parker via e-mail as an electronic attachment in Word or rich text file at: jparker@sju.edu. For eventual questions about Editorial Manager, authors can also contact the Brill EM Support Department at: em@brill.com.

Submission Requirements

Since *Kronoscope* is an interdisciplinary journal, it is helpful for authors to include in their communication the manuscript's area of specialization(s). This assists in finding suitable reviewers for the work.

Manuscripts are refereed blind by the Editorial Board and/or external reviewers.

Language

Articles should be written in English.

Length

Articles should be no longer than 8,000 words.

Manuscript Structure

Style and format should be consistent with *The Chicago Manual of Style*, 16th edition, online at: chicagomanualofstyle.org/home.html.

Please double-space throughout, with one-inch margins.

Abstract and Keywords

Along with the manuscript, please provide an abstract of 150 words, including a brief list of 3-8 keywords.

Production

Proofs

Upon acceptance, a PDF of the article proofs will be sent to the author by e-mail to check carefully for factual and typographic errors. Authors are responsible for checking these proofs and are strongly urged to make use of the Comment & Markup toolbar to note their corrections directly on the proofs. At this stage in the production process only minor corrections are allowed. Alterations to the original manuscript at this stage will result in considerable delay in publication and, therefore, are not accepted unless charged to the author. Proofs should be returned promptly.

Instructions for Authors

E-offprints

A PDF file of the article will be supplied free of charge by the publisher to authors for personal use. Brill is a RoMEO yellow publisher. The Author retains the right to self-archive the submitted (pre-peer-review) version of the article at any time. The submitted version of an article is the author's version that has not been peer-reviewed, nor had any value added to it by Brill (such as formatting or copy editing). The Author retains the right to self-archive the accepted (peer-reviewed) version after an embargo period of 24 months. The accepted version means the version which has been accepted for publication and contains all revisions made after peer reviewing and copy editing, but has not yet been typeset in the publisher's lay-out. The publisher's lay-out must not be used in any repository or on any website (brill.com/resources/authors/publishing-books-brill/self-archiving-rights).

Consent to Publish

Transfer of Copyright

By submitting a manuscript, the author agrees that the copyright for the article is transferred to the publisher if and when the article is accepted for publication. For that purpose the author needs to sign the **Consent to Publish form**, which will be sent with the first proofs of the manuscript.

Open Access

Should the author wish to publish the article in Open Access he/she can choose the Brill Open option. This allows for non-exclusive Open Access publication under a Creative Commons licence in exchange for an Article Publication Charge (APC), upon signing a special Brill Open Consent to Publish Form. More information on Brill Open, Brill's Open Access Model, and the Brill Open Consent to Publish Form can be found on brill.com/brillopen.
