Instructions for Authors

Scope

Philosophia Reformata (*PHIR*) is a philosophical journal which welcomes contributions that contain philosophical reflection in relation to the Christian tradition. Articles are broadly philosophical in nature, including interdisciplinary approaches in which philosophical reflection forms a substantive element. Contributions may either focus on philosophical themes in relation to Christianity (e.g., being, truth, knowledge, the good, religion, personhood, and others), or on themes in the sciences, the humanities, ethics, and professional practices, also in relation to Christianity (e.g., themes relating to normativity, responsibility, care, natural and social sciences, politics, economics, environmental sciences, and/or technology).

Ethical and Legal Conditions

The publication of a manuscript in a peer-reviewed work is expected to follow standards of ethical behavior for all parties involved in the act of publishing: authors, editors, and reviewers. Authors, editors, and reviewers should thoroughly acquaint themselves with Brill's publication ethics, which may be downloaded here: brill.com/page/ethics/publication-ethics-cope-compliance.

Online Submission

PHIR encourages the use of online submission. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at editorialmanager.com/phir. First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested. During registration, you can fill in your username and password.
If you should forget your Username and Password, click on the "Send Username/Password" link in the login section, and enter your first name, last name, and email address exactly as you had entered it when you registered. Your access codes will then be e-mailed to you.
Prior to submission, authors are encouraged to read the "Instructions for Authors." When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.
A revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Double-blind Peer Review

All papers submitted to *PHIR* are reviewed by the Editors; they may, in addition, be submitted for review to external referees. In respect of these referees, *PHIR* uses a double-blind peer review system, which means the manuscript author(s) do not know who the reviewers are and the reviewers do not know the

names of the author(s). When you submit your article via Editorial Manager, you will be asked to submit a separate title page that includes the full title of the manuscript, the names and complete contact details of all authors, abstract, keywords and any acknowledgement texts. This page will not be accessible to referees. All other files (manuscript, figures, tables, etc.) should not contain any information concerning author names, institutions, etc. The names of these files and the document properties should also be anonymized.

Proofs
Upon acceptance, a PDF of the article proofs will be sent to the author by e-mail to check carefully for factual and typographic errors. Authors are responsible for checking these proofs and are strongly urged to make use of the Comment & Markup toolbar to note their corrections directly on the proofs. At this stage in the production process only minor corrections are allowed. Alterations to the original manuscript at this stage will result in considerable delay in publication and, therefore, are not accepted unless charged to the author. Proofs should be returned promptly to the Managing Editor.

E-Offprints
A PDF file of the article will be supplied free of charge by the publisher to authors for personal use.

The publisher's lay-out must not be used in any repository or on any website (brill.com/resources/authors/publishing-books-brill/self-archiving-rights).

This allows for non-exclusive Open Access publication under a Creative Commons license in exchange for an Article Publication Charge (APC), upon signing a special Brill Open Consent to Publish Form. More information on Brill Open, Brill's Open Access Model, and the Brill Open Consent to Publish Form can be found on brill.com/brillopen.
