

Brill E-Book Select

Brill E-Book Select enables libraries to select titles on demand and to create their own customised collections of E-Books, to meet the research and teaching needs of their institution.

Brill E-Book Select is Brill's 'pick and choose' model, which offers librarians and users a more flexible E-Book acquisition option. *Brill E-Book Select* is an easy way to complement the library holdings with individual titles.

- The library chooses titles à la carte
- *Brill E-Book Select* titles are priced lower than the price of the same title in print
- All purchases are on an outright purchase basis
- No minimum order amount
- You can order *Brill E-Book Select* titles online through the library administrator portal.

All Brill E-Books are made available on www.brill.com

Features and Benefits

- All Brill E-Books can be cross-searched with Brill's journals, or users can choose to search the E-Book content only
