Private International Law *Idealism, Pragmatism, Eclecticism*

Symeon C. Symeonides,
Willamette University College
of Law

This book compares the two golden ages of private international law (PIL): the first is the era of Story and Savigny in the nineteenth century, while the second comprises the last fifty years. The period between 1970 and 2020 has been one of rapid changes and dense legislative responses, exemplified by the adoption of over one hundred national PIL codifications and almost as many international or regional conventions and regulations. These instruments provide a rich source for this book's incisive and instructive comparisons and a fertile ground for a reliable assessment of the progress of PIL as a discipline.

Encyclopedia of Public International Law in Asia Online

Editor: **Seokwoo Lee**

Incorporating the work of numerous leading scholars, the *Encyclopedia of Public International Law in Asia* provides a detailed description of the practice and implementation of international law in various Asian states. The Encyclopedia covers the introduction of Western international law and the resulting shift from the older Asian order; the development of modern international law; and the impact that all of this has had on Asian states.

Offered online and in print as three geographically-organized volumes – Northeast Asia, Southeast Asia, and Central and South Asia – this reference

work provides valuable information for all those interested in the historical development, implementation, and application of international law in Asia. Although there is general acknowledgement of the great variety of cultures among Asian countries, strong themes of familiarity, mutual understanding, coherence, and solidarity persists among them as a result of the numerous mutual cultural and religious contacts and interconnections that developed over the course of centuries. This examination of international law and its application in Asia reveals the shared history of the continent, as well as its unique development in each Asian state.
