Commentaries on World Trade Law Online

Editors: **Peter-Tobias Stoll** and **Holger Hestermeyer**

Commentaries on World Trade Law is a comprehensive, standard reference work on WTO Law. The Commentaries explain the provisions of the WTO Agreements article by article, setting out the interpretation of each article in the case law, in practice and in scholarly writing. Building on the leading reference, *Max Planck Commentaries on World Trade Law*, this fully revised and updated second edition brings together the writings of a team of more than 100 of the world's leading scholars, practitioners and former members of the Appellate Body.

For the broadest comparative research advantage, each of the 392 articles follows a uniform structure including:

- A. General
- B. Historical Development
- C. WTO Secretariat
- D. Director-General
- E. Evaluation and Outlook
- Documents and Case Law
- Bibliography

Orbital Debris Prevention and Mitigation Efforts among Major Space Actors

Commonalities and the Search for Customary International Law

Marc G. Carns,
University of Nebraska

Has sufficient commonality in major spacefaring programs led to the formation of customary international law? As orbital debris continues to multiply in outer space, Lt Col. Marc G. Carns investigates whether, in the absence of a treaty to stem orbital debris growth, commonalities among major spacefaring programs establish customary international law regarding debris prevention and mitigation.
