## Jus Mundi – Academic Research

*The Search Engine for International Law*

The *Jus Mundi* platform offers a comprehensive, multilingual, and user-friendly search engine for advanced academic research in international law and arbitration. Aimed at judges, academic researchers, legal practitioners, and tertiary students, *Jus Mundi* covers over 30,000 international law and investor-state arbitration documents, including treaties, ICJ, PCIJ, PCA, ITLOS, ICSID and other arbitration institutions, UNCITRAL, IUSCT documents (judgments, arbitral awards, orders, pleadings, etc.), and decisions of the Mixed Claims Commissions. Commercial arbitration is also exclusively available on *Jus Mundi*. *Jus Mundi* offers several advanced linguistic features and more than a dozen filters to narrow down search criteria based on open or specific search strings, legal concepts relevant to the search, case type, decision type, type of legal document, representatives, decision-makers, dates, and more.

## Sovereign Limits

*Sovereign Limits* is an essential tool in the research and visualization of international boundaries. Key components include:

- Highly detailed interactive map, capable of showing boundary data at large scales atop multiple basemap options.
- Over 200 point locations of disputed or contentious sovereignty accompanied by a brief explanation of the conflict.
- Primary sources, maps, and analyses attached to each international boundary.
- "State-view:" Filter the map by a country to see its "sovereign footprint" of land and maritime boundary claims.
- International diplomatic recognition for de facto States and areas of major dispute.
- Combines all land and maritime boundaries into a cohesive database, which enables users to better understand the true sovereign footprint for every State, and their dependencies.

## Encyclopedia of Public International Law in Asia (3 vols)

**Seokwoo Lee**, Inha University Law School

Incorporating the work of numerous leading scholars, the *Encyclopedia of Public International Law in Asia* provides a detailed description of the practice and implementation of international law in twenty Asian states. The Encyclopedia covers the introduction of Western international law and the resulting shift from the older Asian order; the development of modern international law; and the impact that all of this has had on Asian states.

Offered in three geographically-organized volumes – Northeast Asia, Southeast Asia, and Central and South Asia – this reference work provides valuable information for all those interested in the historical development, implementation, and application of international law in Asia. Although there is general acknowledgement of the great variety of cultures among Asian countries, strong themes of familiar-

ity, mutual understanding, coherence, and solidarity persists among them as a result of the numerous mutual cultural and religious contacts and interconnections that developed over the course of centuries. This examination of international law and its application in Asia reveals the shared history of the continent, as well as its unique development in each Asian state.

Offered online and as a three-volume print set – Northeast Asia, Central and South Asia and Southeast Asia - this reference work is a valuable resource for all those interested in the historical development, implementation, and application of international law in Asia.

**READERSHIP:** All interested in the historical development, implementation, and application of international law in Asia.
