

## Scope

*Nuncius*, the *Journal of the Material and Visual History of Science (NUN)*, is a peer-reviewed, international, journal devoted to the historical role of material and visual culture in science. *Nuncius* explores the material sources of scientific endeavor, such as scientific instruments and collections, the specific settings of experimental practice, and the interactions between sciences and arts. The materiality of science is a fundamental source for the understanding of its history, and the visual representation of its concepts and objects is equally crucial. *Nuncius* focuses on the exploration of increasingly-varied modes of visual description of observed reality. Founded in 1976, *Nuncius* was originally published as *Annali dell'Istituto e Museo di Storia della Scienza*. A rich review section covers the main contributions to the field.

## Ethical and Legal Conditions

The publication of a manuscript in a peer-reviewed work is expected to follow standards of ethical behavior for all parties involved in the act of publishing: authors, editors, and reviewers. Authors, editors, and reviewers should thoroughly acquaint themselves with Brill's publication ethics, which may be downloaded here: [brill.com/page/ethics/publication-ethics-cope-compliance](http://brill.com/page/ethics/publication-ethics-cope-compliance).

## Online Submission

*Nun* uses online submission only. Authors should submit their manuscript via the Editorial Manager (EM) online submission system at: [editorialmanager.com/nun](http://editorialmanager.com/nun). First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested.

During registration, you can fill in your username and password. If you should forget this username and password, click on the "send login details" link in the login section, and enter your e-mail address exactly as you entered it when you registered. Your access codes will then be e-mailed to you. Prior to submission, authors are encouraged to read the 'Instructions for Authors'. When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.

A revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

Please visit the site and log into the site. If you are not yet registered please register yourself and complete the requested information. Your Log in information will be sent to your email address automatically. After logging on to the site, please follow the on-screen steps to upload your manuscript for evaluation.

## **Publication**

### *Proofs*

Upon acceptance, a PDF of the article proofs will be sent to the author by e-mail to check carefully for factual and typographic errors. Authors are responsible for checking these proofs and are strongly urged to make use of the Comment & Markup toolbar to note their corrections directly on the proofs. At this stage in the production process only minor corrections are allowed. Alterations to the original manuscript at this stage will result in considerable delay in publication and, therefore, are not accepted unless charged to the author. Proofs should be returned promptly.

### *E-offprints*

A PDF file of the article will be supplied free of charge by the publisher to authors for personal use. Brill is a RoMEO yellow publisher. The Author retains the right to self-archive the submitted (pre-peer-review) version of the article at any time. The submitted version of an article is the author's version that has not been peer-reviewed, nor had any value added to it by Brill (such as formatting or copy editing). The Author retains the right to self-archive the accepted (peer-reviewed) version after an embargo period of 12 months. The accepted version means the version which has been accepted for publication and contains all revisions made after peer reviewing and copy editing, but has not yet been typeset in the publisher's lay-out. The publisher's lay-out must not be used in any repository or on any website ([brill.com/resources/authors/publishing-books-brill/self-archiving-rights](http://brill.com/resources/authors/publishing-books-brill/self-archiving-rights)).

## **Consent to Publish**

### *Transfer of Copyright*

By submitting a manuscript, the author agrees that the copyright for the article is transferred to the publisher if and when the article is accepted for publication. For that purpose the author needs to sign the **Consent to Publish** which will be sent with the first proofs of the manuscript.

### *Open Access*

Should the author wish to publish the article in Open Access he/she can choose the Brill Open option. This allows for non-exclusive Open Access publication under a Creative Commons license in exchange for an Article Publication Charge (APC), upon signing a special Brill Open Consent to Publish Form. More information on Brill Open can be found on [brill.com/brillopen](http://brill.com/brillopen).
