About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

Not Wholly Free

The Concept of Manumission and the Status of Manumitted Slaves in the Ancient Greek World

Author: Rachel Zelnick-Abramovitz

Not Wholly Free is a comprehensive study of manumission in the Greek world, based on a thorough appraisal of the extant evidence and on a careful examination of manumission terminology. Abramovitz investigates the phenomenon of manumission in all its aspects and features, by analyzing modes of manumission, its terminology, the group composition of manumitters and freed slaves, motivation, procedures and conditions of manumission, legal actions and laws concerning manumitted slaves, and the latter's legal status and position in society.

A very important work for all those interested in social history of ancient Greece, slavery, and manumission, as well as ancient historians and classical philologists.

Readership

All those interested in social history of ancient Greece, slavery, and manumission, as well as ancient historians and classical philologists.
