REALOBJECTS PDFReactor®

Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 10.2.10722. The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

NOTE: Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

Anicii Manlii Severini Boethii De divisione liber

Critical Edition, Translation, Prolegomena, and Commentary

Author: John Magee

This volume provides the first critical edition of Boethius' *De divisione*. The importance of Boethius' treatise is twofold: it was widely read in the medieval schools, and it preserves the only known vestiges of Porphyry's commentary on Plato's *Sophist* and of Andronicus' treatise on diaeresis.

The book is in four main sections: prolegomena in three parts, dealing with the date, source(s), and text of *De divisione*; critical text with apparatus and English translation; detailed philological and philosophical commentary; appendix, bibliography, and word index.

This is the first edition of *De divisione* based on the earliest extant manuscripts, and the first complete commentary in any modern language. It will be of particular interest to students of later ancient and medieval philosophy and literature.

Readership

All those interested in later ancient and medieval philosophy, in classical philology, and in Latin literature of late Antiquity. Also, academic and research libraries.

Pages: lxxvi, 224 pp. 1 illus.

Language: English
