Journal of Persianate Studies

Aims & Scope
Publication of the Association for the Study of Persianate Societies. The journal publishes articles on the culture and civilization of the geographical area where Persian has historically been the dominant language or a major cultural force, encompassing Iran, Afghanistan and Tajikistan, as well as the Caucasus, Central Asia, the Indian Subcontinent, and parts of the former Ottoman Empire. Its focus on the linguistic, cultural and historical role and influence of Persian culture and Iranian civilization in this area is based on a recognition that knowledge flows from pre-existing facts but is also constructed and thus helps shape the present reality of the Persianate world. Such knowledge can mitigate the leveling effects of globalization as well as counteract the distortions of the area’s common historical memory and civilizational continuity by the divisive forces of modern nationalism and imperialism.
