GUIDELINES FOR CONTRIBUTORS

Nuncius is an international journal devoted to the history of science, published twice a year. Nuncius is the new series of the Annali dell’Istituto e Museo di Storia della Scienza di Firenze, founded in 1976 by Maria Luisa Righini Benelli.

1. Manuscripts (three blind copies, plus a floppy or CD), no more than 40 pages in length (page calculated as typewritten text of 300 words) should be submitted to the Editor of Nuncius, Museo Galileo, Piazza dei Giudici, 1, 50122 Florence. Every manuscript, accompanied by an abstract in English (maximum 150 words) and a brief list of keywords (maximum 3), will be subjected anonymously to double-blind refereeing; all information concerning the author (name, last name, institution, address for notifications, e-mail address) should therefore be presented on a detachable cover.

3. Bibliographic information should be given exclusively in footnotes (endnotes not accepted), and in the following manner:
   a) references to books should include author’s full name in small capitals, complete title of the book in Italian, complete publishing information in the following order: place of publication, publisher, year of publication, page numbers cited. Examples:
   b) references to articles in periodicals should include author’s full name in small capitals, title of article in Roman type between double quotation marks, title of periodical in Italian, year, volume number (numerals in italics), page numbers of article; colon, page cited. Example:
   c) Bearing in mind that bibliographic information should always be given in full at the first citation (particularly as concerns the author’s full name), succeeding bibliographic citations should be abbreviated, indicate only the author’s last name in small capitals and an abbreviated form of the title, followed by the reference, between round parentheses, to the number of the note in which reference was first made in full. Example:
      DARWIN, The Correspondence (cit. note 32), p. 3.

4. Languages. Nuncius accepts articles in English, French and Italian.

5. Each article is allowed up to a maximum of six figures. All derogations to this standard shall be agreed upon directly with the editor. Figures submitted for Nuncius should be free of copyright.

6. Once published, the copyright on manuscripts will be transferred to the Museo Galileo. Articles already published in Nuncius may be published elsewhere but only with the permission of the editor. Articles that have already been published or are simultaneously presented to other journals will not be considered. Two years after their printed publication, the Istituto e Museo di Storia della Scienza reserves the right to publish the article, without alterations, on the Nuncius website www.imss.fi.it/istituto/nuncius/.
