WORLDVIEWS
**WORLDVIEWS**
Global Religions, Culture, and Ecology

**Aims & Scope**

*Worldviews: Global Religions, Culture, and Ecology* is an international academic journal that studies the relationships between religion, culture, and ecology worldwide. The journal addresses how cultural and ecological developments influence the world's major religions, giving rise to new forms of religious expression, and how in turn religious belief and cultural background can influence people's attitudes towards ecology.

**Editor**
